

The Scopus Author Identifier assigns a unique number to groups of documents written by the same author via an algorithm that matches authorship based on a certain criteria. If a document cannot be confidently matched with an author identifier, it is grouped separately. In this case, you may see more than 1 entry for the same author.

Coverage [2005-ongoing](#)

**Scope** The Journal of Intellectual Capital is a peer-reviewed international publication dedicated to the exchange of the latest research and best practice information on all aspects of creating, identifying, managing and measuring intellectual capital in organisations. The journal publishes original research and case studies by academic, business and public sector contributors on intellectual capital strategies, approaches, frameworks, tools, techniques and technologies in order to increase the understanding of intellectual capital within the context of the modern knowledge economy. The focus of this journal is on the identification of innovative intellectual capital strategies and the application of theoretical concepts to real-world situations. ([source](#))
