Dear all speakers and participants of LOOW7,

We are sorry for taking so long to give you updates about the publication of your article in the International Proceedings of LOOW7. We would like to let you know the problem and solution we have in mind.

First, after trying to apply for getting the ISBN **twice**, which resulted in the rejection of both by the Indonesian National Library, we found out the issue with the ISBN application. From what we got, it was unfortunate that Indonesia was given a warning for using the ISBN quota way too many by the International ISBN Board headquartered in London. Thus, it seems a deadlock for applying further to get the ISBN.

Second, after having a discussion with the editorial boards of K@ta, the Committee has come to the conclusion and made the decision that your article will be offered to be published in our journal K@ta in a "Special Edition of K@ta" which is nationally accredited within the rank of SINTA (Science and Technology Index) 2. We believe that this publication would be more beneficial in terms of credit points than the proceedings publication. However, this is an offer that you may accept or reject. If you reject or accept the offer, please fill out the attached document by August 5, 2022. If you do not reply and fill out the form, we consider that you reject the offer.

Thank you very much for your understanding and cooperation.

Best regards,
