Honours quality	<input type="radio"/>
Acceptable	<input type="radio"/>
Acceptable with minor revisions	<input type="radio"/>
Acceptable with major revisions	<input checked="" type="radio"/>
NOT ACCEPTABLE	<input type="radio"/>

Please justify your recommendation in the comments boxes below.

COMMENTS

- Your comments will be used to assist the author(s) in revising their manuscript.
- If you have no comments to make, type 'None' in the box.
- Do not reveal your name in your comments; these comments may be passed on directly to the author.

Changes which must be made before publication:

1. What is the benefit by knowing that there is a different perception of IC between public and private university and please clarify what the research gap that fulfilled by investigating the perception of importance of IC between public and private university.
2. What is the contribution of this study,
3. I cannot find what theory that the author (s) base to the hypotheses, please specify.
4. Method: how to test each of hypothesis, how to get the score of each construct in this research, so the author(s) can test IC, UC, CC and PC, how did you get the score of each construct.

Suggestions which would improve the quality of the article but are not essential for publication:

This study will be more interesting if the author(s) add the relationship of perception of importance of IC and the university performance,

COMMENTS

Changes which must be made before publication:-

1. What is the benefit by knowing that there is a different perception of IC between public and private university and please clarify what the research gap that fulfilled by investigating the perception of importance of IC between public and private university.
2. What is the contribution of this study,
3. I cannot find what theory that the author (s) base to the hypotheses, please specify.
4. Method: how to test each of hypothesis, how to get the score of each construct in this research, so the author(s) can test IC, HC, SC and RC, how did you get the score of each construct, because each construct is consisted of several indicators.
5. The conclusion should relate with results of hypothesis testing, not just suggestion/implication of the results, and the suggestion/implication should be discuss first in the discussion section.

Suggestions which would improve the quality of the article but are not essential for publication:-

This study will be more interesting if the author(s) add the relationship of perception of importance of IC and the university performance,

Confidential comments only for the editor:-

None

SCOPE

Strategy management involves understanding the forces and causes that explain performance differences between organisations, a result of different stocks of knowledge-based resources and capabilities. The intellectual capital literature focuses on the measurement of firms'knowledge base. It also addresses building guidelines for the development of "intellectual capital accounts". IJLIC covers the latest advances on organisational learning, knowledge management and intellectual capital measuring and reporting. It promotes ways in which these impact on firms'competitive advantage in the New Economy. Topics covered include: -Intangible resources- Competitive strategy- Knowledge-based view of the firm- Human/relational/social/organisational capital- Human resource management- Intellectual capital reporting- Organisational learning- Social networks- Innovation and knowledge management- Innovation and leadership- Product and process innovation- Technology and innovation management- Dynamic capabilities and routines- Quality- Case studies

The users of Scimago Journal & Country Rank have the possibility to dialogue through comments linked to a specific journal. The purpose is to have a forum in which general doubts about the processes of publication in the journal, experiences and other issues derived from the publication of papers are resolved. For topics on particular articles, maintain the dialogue through the usual channels with your editor.
