Dear Authors

Some of the input provided by our reviewers is related to the articles we have received. The results of the review that need to be improved are:

Reviewer # 1

- a. Abstracts must have research objectives, data collection, data analysis, conclusions, and theoretical and practical contributions. Please make improvements.
- b. To clearly detect research gaps, the phenomena of improvement needs to be described and can be highlighted.
- c. Please include the connections between topics that are missing from the article.
- d. The research must include theoretical and practical contributions, particularly near the conclusion of the debate.

Reviewer # 2

- a. Although the abstract is excellent and complete, researchers should add contributions for subsequent researchers.
- b. The literature review is excellent, but in order for the hypotheses to be supported by the literature, it is important to emphasize the connections between concepts.
- c. The discussion needs to be discussed one by one according to the number of hypotheses so that it can be understood in line between the models, the output data analysis, and the discussion
- d. References adapted to the journal format.

Please make improvements according to the requests of each of our reviewers, and please make repairs carefully according to the recommendations of each reviewer.

Sincerely
Sadjadi

Dear Author

I have received the comments from one of the reviewers and it appears that the paper could be considered for publication should it go under careful editing. We have a group of people who could do this and in case they do the editing your paper will be accepted. The cost of our service is \$700USD. However, it is not obligatory and you may use your own service. If you wish to use our service please let me know, otherwise, feel free to upload a high quality paper using the UPLOAD option.

In case you wish to use our service, please let me know so that I could send you details of the payment.

Sincerely
Sadjadi
