Dear Dr. Willyanto Anggono:

Thank you for submitting the manuscript, "Effects of Extraction Methods on The Fuel Characteristics and Diesel Engine Performances of Jatropha Curcas Biodiesel" to Jurnal Teknologi. With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL:

<https://jurnalteknologi.utm.my/index.php/jurnalteknologi/author/submission/15079>

Username: willy

As stated in the Author Guidelines; all articles that have been chosen to be published in Jurnal Teknologi will be charged Malaysian Ringgit 530.00 per article.

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

Thank you.

Warm regards;
Editor-in-Chief
Jurnal Teknologi

Dear Prof. Liao and Prof. Noor,
I have submitted our paper ("Effects of Extraction Methods on The Fuel Characteristics and Diesel Engine Performances of Jatropha Curcas Biodiesel") to Jurnal Teknologi (International Journal Scopus Q2) on 4 June 2020.
I will let you know if I have any update regarding this manuscript.
Thank you for your help.
Many Thanks and All the best,
Willyanto

Dear Editor-in-chief of Jurnal Teknologi

Universiti Teknologi malaysia

On 4th of June 2020, I submitted a manuscript titled "Effects of Extraction Methods on The Fuel Characteristics and Diesel Engine Performances of Jatropha Curcas Biodiesel" to Jurnal Teknologi. You may find the confirmation of submission at the end of this email.

Recently, I found that the website is undergoing maintenance and I am not able to check the status of the manuscript. Therefore, I would like to request regarding the current status of my manuscript.

I am waiting for your further information.

Many Thanks and All the best,

Prof. Dr. Willyanto Anggono, S.T., M.Sc.

Dear Author Sir / Madam,

Sorry for the delay in replying your email (your email has been sent to spam folder).

We apologize that you are currently unable to access our Jurnal Teknologi's portal. For your information, our technical team is trying to resolve a serious hacking issue since 7th June 2020. We hope they can fix the issue as soon as they can.

Please be advised that your article ID: 15079 is still in the hands of our editor which means that the reviewing process is not yet to be completed.

Please be advised that we publish high quality articles that will go through a few major processes including editor screenings and reviews (could be repetitive) as to maintain our standard in both SCOPUS and WOS. If you are looking for acceptance in less than 6 months we strongly suggest that you find any other reputable journal that suits your requirements. We will honour and respect your decision.

Thank you.

To: "Dr. M.M. Noor" <muhamad@ump.edu.my>, MUHAMAD BIN MAT NOOR <ballpen22@gmail.com>

Dear Prof. Noor

I am sharing with you the revised manuscript and respond to the reviewer for our paper in Jurnal Teknologi. I would like to ask your help to check the revision and the response to the reviewer. You may find the details for the review results at the end of this email. I would appreciate it if you could send me your inputs by 15 April.

As the abstract was revised following the reviewer's comments, I would like to ask your help to check and translate the abstract into the Malay language.

Thank you for your time and help.

All the best,

Willyanto

Subject: [Jurnal Teknologi] Editor Decision (RR) "Effects of Extraction Methods on The Fuel Characteristics and Diesel Engine Performances of Jatropha Curcas Biodiesel"

Dear Willyanto Anggono, Muhamad Mat Noor, Shiyong Liao, Kevin Sanka, Gabriel Jeremy Gotama, - Sutrisno, Fandi D Suprianto:

We have reached a decision regarding your submission to Jurnal Teknologi, "Effects of Extraction Methods on The Fuel Characteristics and Diesel Engine Performances of Jatropha Curcas Biodiesel".

Our decision is: REVISION REQUIRED

2. Reviewers have now commented on your paper. You will see that they are advising you to revise your manuscript. If you are prepared to undertake the work required, I would be pleased to consider your article for publication.

3. For your guidance, reviewers' comments are attached.

4. Please be advised all articles that have been chosen to be published in Jurnal Teknologi will be charged MYR 530.00. Should you agree to this term, please submit the following items within three (3) weeks through the system and through email journal_utm@utm.my and qpenerbit@utm.my:

- a) **Revised Manuscript.**
- b) **List of CORRECTIONS DONE.**
and
- c) Filled document "JT Invoice Request and Payment Instructions REGULAR ISSUE" to enable us prepare a formal invoice for payment purpose.

We look forward for your favourable reply. Thank you.

Yours sincerely;

Professor Dr. Mohammad Nazri Mohd. Jaafar

Editor Comments:

- i. Please add 5 most recent references that is between 2017-2021.

Reviewer B:**Recommendation: Revisions Required**

Referee's comments

Comments :

1. In the abstract: Please clearly state between oil and its biodiesel, in this abstract still mixed between which the oil and which the Biodiesel,
2. The flash point value is too low for methyl ester properties, It seems look there are a high concentration methanol impurities causing very low flash point, in the standard of BDF (biodiesel fuel) minimum should be 100 deg C. Maybe some in-completed refining process occurred when producing its biodiesel.
3. Regarding very low pour point and lower than PPD, It is not normally the properties of Jatropha biodiesel, It should be re-analyzed or find what is the reason.?
4. Water content are too high, max should be 500 ppm.
5. As you produced biodiesel at least you should show the biodiesel specification such as:
 - a. Iodine Value,
 - b. Saponification value,
 - c. Total Glycerides,
 - d. Free Glycerides,
 - e. Viscosity,
 - f. Density,
 - g. Acid value.

A. Evaluations:

- The topic is important and relevant for publication
- The work presented in the manuscript is original
- The manuscript uses sufficient references
- The manuscript uses appropriate language and styles
- The title of the manuscript is appropriate
- The order of the presentation is satisfactory
- The introduction is adequately developed
- The manuscript does not dwell on any sensitive issues

B. Suggestions to the author(s): What can the author(s) do to improve the quality of this paper?

1. In the abstract: Please clearly state between oil and its biodiesel, in this abstract still mixed between which the oil and which the Biodiesel,
 2. The flash point value is too low for methyl ester properties, It seems look there are a high concentration methanol impurities causing very low flash point, in the standard of BDF (biodiesel fuel) minimum should be 100 deg C. Maybe some in-completed refining process occurred when producing its biodiesel.
 3. Regarding very low pour point and lower than PPD, It is not normally the properties of Jatropha biodiesel, It should be re-analyzed or find what is the reason.?
 4. Water content are too high, max should be 500 ppm.
 5. As you produced biodiesel at least you should show the biodiesel specification such as:
 - a. Iodine Value,
 - b. Saponification value,
 - c. Total Glycerides,
 - d. Free Glycerides,
 - e. Viscosity,
 - f. Density,
 - g. Acid value.And compared to the standard, such as EN/ASTM/Malaysian Standard.

Dear Prof. Noor

I have attached the revised manuscript and the reviewer's response for our paper in Jurnal Teknologi that follow your feedback. The revisions based on your feedback are highlighted green in the manuscript.

For the abstract, there is part of the English abstract that needs to be translated into the Malay language. Please help translate that part of the English abstract and include the translation in the Malay abstract. The part of the English abstract that needs to be translated is highlighted purple in the manuscript.

Thank you for your time and help with our manuscript.

All the best,

Willyanto
