Constellation is a collection of sixteen 10-minute plays by young authors. The plays' subjects are taken from their experience and observation on the society, the society they usually have contacts with. The plays explore relationships between and among people, be it between lovers, siblings, parents and children, or even strangers. These plays are good for educational purposes such as acting, directing and production, or even English classes.

Ribut Basuki, Dean of the Faculty of Letters, Petra Christian Unviersity.
