Virtual Vertu of Vanya

Experience the future of fashion, where physical going digital, this is a virtual prototyping of Vanya. In collaboration with student of Fashion Design and Textile of Universitas Kristen Petra and of Small Medium Enterprise-Naleni Kain. 3D technology pushed beyond boundaries to challenge designers boost their creativity exploring as many as design they want, colors and even fabric they use, while stay environmentally conscious that leave no garment remnants. Emblazoned as a 'vertu' in French, meaning 'virtue' that shows the spirit of sustainability through this 3D simulation print.
