

Author details

The Scopus Author Identifier assigns a unique number to groups of documents written by the same author via an algorithm that matches authorship based on a certain criteria. If a document cannot be confidently matched with an author identifier, it is grouped separately. In this case, you may see more than 1 entry for the same author.

**** IMPORTANT NOTICE: Journal Paper Publication Policy will be changed from JULY 2014**

1. Only one (1) paper from same author can be included in each issue (regardless of role and order).
2. Papers from one country cannot exceed 60% in each issue (it will be calculated by checking first author's nationality).
3. Policies above will be applied from July 2014.

Journal Paper Publication Policy

1. Every published paper is readily available in our Open Access repository.
2. Maximum of thirty-nine (39) papers can be included in each issue.
3. Maximum of two (2) papers from same author can be included in each issue (regardless of role and order).
4. Each paper should have only one (1) corresponding author, and corresponding author cannot be changed.
5. If plagiarism problem was found, all authors of that paper cannot submit paper to our journal for three years. (And that paper will be removed even though it was published, and this will be noticed by home page)
6. If double submission was found, all authors of that paper cannot submit paper to our journal for three years. (And that paper will be removed even though it was published, and this will be noticed by home page)
7. Papers from one country cannot exceed 70% in each issue (it will be calculated by checking first author's nationality).
8. Only paper containing simulation, implementation, case study or other evidence of research advancement can be published. (Idea paper can be published after getting permission from editorial board)
9. Policies above will be applied from April issue of 2013.
